# About Us

Jaya Durga Exports is a trusted global exporter of premium granite and a leading name in the international natural stone market. Headquartered in Chimakurthy, near Ongole in Prakasam District, Andhra Pradesh, India, we operate from the heart of the world-renowned Black Galaxy granite region.

Founded under the dynamic and visionary leadership of Mr. Thammisetty Murali Krishna, we have built a solid reputation through an unwavering commitment to quality, ethical business practices, and customer satisfaction.

With over a decade of industry experience, we specialize in sourcing, processing, and exporting a wide range of granite and natural stones. Our extensive product portfolio includes highly sought-after varieties such as Black Galaxy, Steel Grey, Tan Brown, Absolute Black, Black Pearl, and all major Indian granites. These are available in blocks, slabs, tiles, and custom finishes to meet the unique requirements of our global clientele.

We source stone from the finest quarries and process it using state-of-the-art technology and strict quality control systems, ensuring exceptional durability, aesthetic appeal, and compliance with international standards. Our products are used in residential and commercial construction, landscaping, interior design, and monuments.

At Jaya Durga Exports, we focus on building long-term partnerships through transparent dealings, timely delivery, and consistent quality. We are also deeply committed to sustainable practices and responsible mining, ensuring our operations support both the environment and local communities.

With a strong foundation built on innovation, trust, and excellence, Jaya Durga Exports continues to expand globally—proudly delivering India's finest granites to markets across the USA, Europe, the Middle East, and Asia.

## Our Mission

To deliver premium granite globally with a focus on quality, sustainability, and customer satisfaction in every shipment.

## Our Vision

To be the world's most trusted and innovative granite exporter, leading the natural stone industry with excellence and integrity.

## Why Choose Us?

At Jaya Durga Exports, we pride ourselves on delivering premium-quality granite sourced from renowned quarries. Our commitment to ethical business practices, consistent quality, and on-time delivery sets us apart. With decades of experience in the stone industry, we ensure personalized customer service and tailored solutions for every client. Trust, reliability, and excellence form the foundation of our long-standing relationships with customers across the globe.

# Our Products

## Granite

---

Granite is a durable, igneous rock composed mainly of quartz, feldspar, and mica. It is widely used in construction and decorative applications due to its strength and aesthetic appeal.

## Marble

---

Marble is a metamorphic rock formed from limestone, characterized by its smooth texture and beautiful veining. It is commonly used in sculpture and architecture for its elegance and versatility.

## Onyx

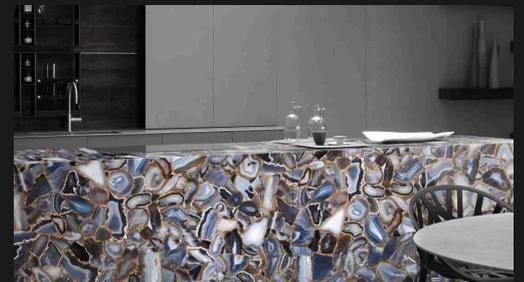

---

Onyx is a banded, metamorphic stone formed from silica and characterized by its striking colors and patterns. It is often used in decorative items, jewelry, and architecture for its unique appearance.

## Agate

---

Agate is a colorful, banded variety of chalcedony, a mineral in the quartz family. Valued for its beauty and versatility, it is commonly used in jewelry and decorative objects.

## Mosaics

---

Mosaics are artistic designs created by assembling small pieces of materials like glass, stone, or ceramics to form intricate patterns or images. This ancient art form is often used in decorative flooring, walls, and ceilings.

# Our Products

## Nano Stone

---

Nano Stone is a high-tech composite material designed to mimic the appearance of natural stone while offering enhanced durability and stain resistance. It is often used in countertops, flooring, and wall applications for its aesthetic appeal and low maintenance.

## Slate Stone

---

Slate stone is a fine-grained metamorphic rock known for its durability and layered structure, which allows it to be split into thin sheets. It is commonly used for roofing, flooring, and decorative tiles due to its natural beauty and resistance to weathering.

## Quartz

---

Quartz is a widely abundant mineral composed of silicon dioxide, known for its hardness and crystalline structure. It is commonly used in various applications, including countertops, electronics, and glassmaking, due to its durability and versatility.

## Limestone

---

Limestone is a sedimentary rock primarily composed of calcium carbonate, often formed from the remains of marine organisms. It is widely used in construction, as a raw material in cement, and for agricultural purposes to improve soil quality.
